

Albanian Optical Cable Installation Custom Manufacturer

Overview

Products We produce high quality products according to European and American standards, fiber optic cables, patch cords, PLC&CWDM, DWDM, etc. NETWORK SOLUT.

Key Takeaways

Albania offers a range of custom optical cable manufacturers and professional installation services to support high-speed network infrastructure.

Leading Manufacturers

Proton Cable (Teoren Group) – Proton Cable is a major producer of electric and optical cables in Albania, with a production capacity of 800 tons per year. They follow CE Performance Declarations and German VDE standards, and their facilities include advanced technology for copper wire and halogen-free cable production, making them suitable for custom fiber optic solutions. Albaletrica – This company provides optical fibers, LAN cables, and network components, supporting enterprises in building or expanding communication networks.

They offer products that can be tailored to specific project requirements. Max. Digicom, Vivo Communications, and Neofone – While primarily service providers, these companies also supply fiber optic infrastructure and may collaborate with manufacturers for custom solutions, particularly for high-speed internet and business connectivity projects.

Professional Installation Services

The Installation Services – Specializes in fiber optic cable installation, structured cabling, Ethernet setups, and IT infrastructure deployment. They provide turnkey solutions for offices, residential setups, and institutional networks, ensuring high-performance, secure, and scalable systems. We Are Fiber – Offers outsourced support for network management and process tracking, which can complement installation projects by providing ongoing monitoring and service management.

Key Considerations

Customization: Proton Cable and Albaelettrica can produce cables to specific technical requirements, including halogen-free or specialized sheathing. **Quality Standards:** Look for CE certification and adherence to international standards like VOE for consistent performance. **Turnkey Solutions:** Combining manufacturing with professional installation ensures seamless deployment and long-term reliability.

Scalability: Providers like The Installation Services offer structured cabling and network design that can grow with your business needs. For businesses or institutions seeking custom optical cable solutions in Albania, partnering with a manufacturer like Proton Cable or Albaelettrica, combined with professional installation from The Installation Services, provides a comprehensive approach from production to deployment, ensuring high-quality, reliable, and scalable fiber optic networks.
