

Fiber Optic Waterproof Connector SC

Overview

The OptiTap Compatible SC Slim Waterproof Adapter adopts a thread-lock sealing mechanism to guarantee long-term waterproof performance for outdoor FTTH and industrial applications. This is where Ruggedized Fiber Optic Connectors come in. Whether you are connecting a Remote Radio Unit (RRU) for Ericsson, Nokia, or Huawei, or setting up a harsh-environment sensing network, choosing the right waterproof interface is critical to preventing signal loss and network downtime. These connector assemblies protect standard fiber interfaces (LC duplex, SC simplex, or MPO multi-fiber) within a durable, sealed housing. Its compact body allows efficient use in dense terminal boxes, while its rugged structure ensures secure mating.
