

Length of optical fiber cable for communication in Papua New Guinea

MORE CASES
PRESENTATIONS

Overview

Papua New Guinea is enhancing its digital infrastructure through an extensive National Transmission Network. PNG DataCo, a subsidiary of Kumul Consolidated Holdings, operates the NTN, which spans over 12,000 km of fibre cable. This network facilitates both domestic and international connectivity. The Coral Sea Cable System (CS²) is a 4,700km long fibre optic submarine cable system linking Sydney, Australia, to Port Moresby, Papua New Guinea and Honiara, Solomon Islands. The Coral Sea Cable Company owns and operates The Coral Sea Cable System. The APNG-2 cable system was ready for service late 2006. The APNG-2 cable lands at: The APNG-2 consortium comprises Telikom PNG, Telstra, and Telecom New. Islands to the major East Coast Internet Hub in Sydney, Australia.
