

Prices of Components for Indoor Electrical Distribution Boxes

Overview

Detailed pricing guide for small distribution boxes featuring comprehensive product specifications, safety certifications, and value-added services.

Key Takeaways

Indoor electrical distribution boxes typically range from \$20 to \$200 per unit, depending on size, material, and features.

Typical Price Ranges

Basic residential units: Small single-phase boxes for home use generally cost \$20-\$50 per unit, suitable for a few circuits and standard protection devices.

Commercial or industrial units: Larger three-phase or multi-circuit boxes with higher amperage capacity can range from \$100-\$200 or more per unit.

Custom or OE

M enclosures: Customized indoor boxes with specific layouts, branding, or additional features may cost more, with pricing often provided on request by manufacturers.

Factors Affecting Price

Material and Construction: Plastic enclosures are generally cheaper, while metal or NEMA-rated boxes for industrial use are more expensive. Number of Circuits: More circuits require larger boxes and additional components, increasing cost.

Safety and I

P Ratings: Higher protection against dust or accidental contact can raise the price. Additional Features: Integrated monitoring, smart controls, or modular designs can add to the cost. Volume and Supplier: Wholesale orders or bulk purchases often reduce per-unit cost, while single-unit retail purchases are higher.

Where to Buy

Retail suppliers: Online stores like Intratec offer a wide selection of indoor distribution boxes at competitive prices for both private and commercial use. Industrial suppliers: RS Hong Kong and NEMA enclosure specialists provide high-quality boxes suitable for commercial and industrial applications, often with options for customization. In summary, a standard set of indoor electrical distribution boxes for typical residential or light commercial use will usually cost \$20–\$100 per unit, while larger or specialized industrial boxes can reach \$200 or more, depending on specifications and features.
