

Purchase 12-core fiber optic splice closures

Overview

Order the 12 core fiber optic splice joint closure online, available in large volumes starting from roughly \$4. Suitable for wholesale and bulk purchases with a minimum order of 1 piece. Ideal for FTTH communication equipment. Fiber optic splice closures are one of the most important types of equipment for user access points, and junction box fiber optic splice cases are used to protect and distribute data between two or more cables. The connector box main purpose is to connect outdoor distribution cable to indoor cable. Meets IEC, TIA/EIA & RoHS standards. Engineered for reliability in harsh environments, the Telhua 12-Core Splice Closure provides a secure, high-density termination. Whether your fiber to the home (FTTH) network design has closures in a buried or aerial environment, one thing remains the same: you need assured environmental protection and quick, incremental subscriber drops.
