

Sales price of trapezoidal European-style cable trays

Overview

Cable trays Cable trays Discover a comprehensive range of high-quality cable trays and cable ladders at ekabel24.com – the reliable choice for safe, organi.

Key Takeaways

Trapezoidal European-style cable trays typically range from €20 to €100 per meter, depending on material, size, and customization, with exact prices available via supplier quotes.

Price Overview

The cost of trapezoidal cable trays varies significantly based on material, dimensions, and surface treatment. Common materials include hot-dip galvanized steel, stainless steel, and aluminum, with galvanized steel being the most economical and stainless steel the most expensive due to corrosion resistance and durability. Standard lengths are usually 2–3 meters per section, and widths and heights affect the price per meter.

Galvanized steel trays: approximately €20–€50 per meter
Aluminum trays: approximately €40–€70 per meter
Stainless steel trays: approximately €60–€100 per meter
Customizations such as pre-drilled holes, bends, or special coatings can increase the price. Large orders may qualify for discounts, especially for purchases over €500–€1000.

How to Obtain Exact Pricing

Most European suppliers, including Ekabel24, Eurostrut, and Eurotray, do not list fixed prices online for trapezoidal trays but offer quote requests via their websites.

B2

B marketplaces like Europages also allow direct contact with multiple suppliers to compare prices and shipping options. When requesting a quote, provide: Tray length, width, and heightMaterial type (galvanized, aluminum, stainless steel)Surface treatment (powder coating, epoxy, etc.)Quantity and delivery locationAdditional ConsiderationsLoad capacity: Heavier-duty trays for industrial or photovoltaic installations may cost more. Ventilation and design: Trapezoidal trays offer better airflow and cable protection, which can influence pricing.

Installation accessories: Supports, brackets, and bends are usually priced separately. For accurate budgeting, it is recommended to contact suppliers directly with your specifications to receive a tailored quote. This ensures the price reflects material, size, and any additional features required for your project.
