

Vanuatu Lighting Distribution Box Specifications

Overview

Republic of Vanuatu XRM Lighting Distribution Box This product is mainly suitable for industrial and mining enterprises, production workshops, building dist.

Key Takeaways

The XRM lighting distribution box is a versatile, fully enclosed device suitable for industrial, commercial, and residential electrical distribution in Vanuatu, supporting up to 400V and 100A load.

Key Specifications

Voltage and Frequency: AC 50/60Hz, rated voltage up to 400V for three-phase four-wire or single-phase three-wire systems. Current Rating: Load current not exceeding 100A. Protection Features: Overload, short circuit, and leakage protection integrated into the circuit.

Enclosure: Fully enclosed with surface-mounted measuring instruments, control switches, buttons, and signal indicators for monitoring and operational efficiency.

Applications: Suitable for industrial and mining enterprises, production workshops, high-rise buildings, hotels, hospitals, schools, government offices, and residential buildings. System Compatibility: Works with modular terminal electrical appliances for terminal circuits in single-phase or three-phase systems.

Models and Variants XRM Series: Lightweight, modular, and easy to install, designed for secondary distribution in various industries.

ZG

S Series (Combined Transformers): American-style packaged substations for single-phase civilian power needs, often used in industrial, commercial, and government buildings. Custom Configurations: Distribution boxes can be tailored with MCBs, RCDs, RCBOs, fuses, isolators, busbars, and surge protective devices depending on load requirements and safety standards.

Selection Considerations

When choosing a distribution box in Vanuatu, consider: Application Type: Residential, commercial, industrial, or outdoor use. Number of Circuits: Include spare ways for future expansion. Protective Devices: MCB, RCCB, RCBO, SPD, or main breaker depending on safety needs.

Enclosure Rating: IP rating, corrosion resistance, UV protection, and impact resistance. Compliance: Ensure adherence to IEC standards (IEC 61439, IEC 60670, IEC 60898) or local electrical codes.

Local Suppliers in Vanuatu

Vate Electrics: Leading electrical contractor offering high-quality installation and maintenance of distribution boxes, UPS, and 48Vdc cabinets for domestic, residential, and industrial projects. Dongfeng / DFZDH: Provides XRM and ZGS series distribution boxes suitable for Vanuatu applications, with options for industrial, commercial, and residential installations. Wholesale and Importers: Verified suppliers and manufacturers of electrical distribution boxes are available for bulk purchase in Vanuatu.

Summary

The XR

M lighting distribution box is the primary model used in Vanuatu for safe and efficient secondary electrical distribution. It supports up to 400V, 100A, and is suitable for a wide range of applications from industrial plants to residential buildings. Selection should consider system type, protective devices, enclosure rating, and compliance with local and international standards.

Local suppliers like Vate Electrics and Dongfeng provide installation, maintenance, and customized solutions for Vanuatu's electrical infrastructure.
